

CLNE Booster M

Mobile Hygiene System

The CLNE Booster M is a mobile, self-contained hygiene mainstation, featuring an inbuilt booster delivering up to 40bar working pressure. This system is ideal for customers looking for a portable solution with optimal cleaning performance.

- Grundfos IE5+ pump technology provides class leading energy efficiency and longevity.
- Up to three chemicals can be dispensed through the single outlet, two of which can be foaming. Different titration levels can be set for each.
- One handed operation and easy manoeuvrability removes much the hard work during use, reducing fatigue of operators.
- Clear, colour-coded symbols are used to denote each mode of operation, eliminating potential confusion in multi-lingual environments.
- The compact design, with a much smaller footprint than competitor products, allows for easy, space-saving storage when not in use.
- Available with or without an integral air compressor.
